

The **Hydra II Adapter** (HYD-II) simplifies connections between existing amplifiers and Audio Enhancement classroom systems. This adapter is compatible with many third party amplifiers, including Extron systems. The Hydra II offers the following benefits:

- Facilitates the upgrading of existing classroom sound systems to include wireless teacher and student microphones
- Powers the wireless microphones from the existing system using an innovative power "loop through" design
- Operates over wide voltage range – 12 to 24 VDC
- Interfaces directly with and receives power from existing Extron Pole Vault systems
- Provides balanced and unbalanced outputs through this universal amplifier connector
- Includes audio patch cables compatible with 3.5 mm TRS and RCA inputs
- Includes hook and loop adhesive backed fasteners for easy attachment

Hydra 2 Adapter Specifications

DC power input	12 to 24 VDC. May use an external power supply or "loop through" power tap design.
DC power connectors	Coaxial 5.5 mm x 2.5 mm
Amplifier I/O connector	8P8C
TLD100 I/O connector	8P8C
Weight	0.4 lbs (181.43 g)
Dimensions	2.75 (H) x 3.00 (W) x 1.00 (D) in. (69.85 x 76.2 x 25.4 mm)
